# Lightweight Concrete Line Pump Delivery Pipes

## Lightweight Line Pump Pipes with Welded Victaulic Ends

- Korean made 3mm thick seamed pipe great for everyday line pump work
- 85BAR working pressure using 1020 carbon steel
- Painted in 2 Pac white colour.
- Heavy duty slip on ends used.

### 2" I.D Pipe

| Length | Thickness | PCS Product Code |
|--------|-----------|------------------|
| 3m     | 3mm       | DP-2-3000-03     |

Please note these pipes are made to order with 8-10 weeks lead time as we do not carry in stock.

### 3" I.D Pipe

| Length | Thickness | PCS Product Code |
|--------|-----------|------------------|
| 3m     | 3mm       | DP-3-3000-03     |

### 4" I.D Pipe

| Length | Thickness | PCS Product Code |
|--------|-----------|------------------|
| 0.5m   | 3mm       | DP-4-0500-03     |
| 1m     | 3mm       | DP-4-1000-03     |
| 1.5m   | 3mm       | DP-4-1500-03     |
| 2m     | 3mm       | DP-4-2000-03     |
| 3m     | 3mm       | DP-4-3000-03     |

Custom lengths and colours also available. Call 1300 210 910 for more information.

# Boom Pump/Static Line Concrete Delivery Pipes

## 4" Boom/Static Line Concrete Pump Pipes with Welded Victaulic Ends

- A heavier grade Korean made seamless pipe used on static lines or concrete booms with a 4" pipeline
- 85BAR working pressure using 1020 carbon steel
- Painted in 2 Pac white colour.
- Heavy duty slip on ends used.

| Thickness | Length | PCS Product Code |
|-----------|--------|------------------|
| 4.5mm     | 3m     | DP-4-3000-045    |
| 7mm       | 3m     | DP-4-3000-07     |

Please note 7mm pipes are made to order as we do not carry in stock  
Please allow 8-10 weeks for delivery

## 4.5" Boom/Static Line Concrete Pump Pipes with Welded Victaulic Ends

- Korean made 4" pipes with metric Schwing 4.5" welded on victaulic ends
- 85BAR working pressure using 1020 carbon steel
- Painted in 2 Pac white colour.
- Heavy duty slip on ends used.

| Thickness | Length | PCS Product Code |
|-----------|--------|------------------|
| 4.5mm     | 3m     | DP-45-3000-045   |
| 7mm       | 3m     | DP-45-3000-07    |

Please note 7mm pipes are made to order as we do not carry in stock  
Please allow 8-10 weeks for delivery

## 5" Standard Boom/Static Line ST52 Concrete Pump Pipes with Welded Victaulic Ends

- Korean made ST52 seamless pipe used on static lines or smaller concrete booms with a 5" pipeline
- 85BAR working pressure using 1020 carbon steel
- Painted in 2 Pac white colour.
- Heavy duty hardened slip on ends used.
- Custom lengths made to order

| Thickness | Length | PCS Product Code |
|-----------|--------|------------------|
| 4.5mm     | 0.5m   | DP-5-0500-045-ST |
| 4.5mm     | 1m     | DP-5-1000-045-ST |
| 4.5mm     | 1.5m   | DP-5-1500-045-ST |
| 4.5mm     | 2m     | DP-5-2000-045-ST |
| 4.5mm     | 3m     | DP-5-3000-045-ST |

## 5" Twin Wall Concrete Pump Pipes with Welded Victaulic Ends

- 60-65HRC hardening process. Korean made
- Carbon insert long lasting victaulic ends
- 85BAR working pressure using ASTM1020 carbon steel
- Painted in 2 Pac white colour
- Boom pipes (4.5mm) and deck pipes (7mm) available
- Custom lengths made to order

| Thickness | Length | PCS Product Code |
|-----------|--------|------------------|
| 4.5mm     | 3m     | DP-5-3000-045-TW |
| 7mm       | 3m     | DP-5-3000-07-TW  |

## 5" Hardened/Heat Treated Concrete Boom Pump Pipes with Welded Victaulic Ends

- Korean made hardened pipes with 85BAR working pressure using 1020 carbon steel
- Painted in 2 Pac white colour.
- Heavy duty hardened slip on ends used.
- Custom lengths made to order

| Thickness | Length | PCS Product Code |
|-----------|--------|------------------|
| 4.5mm     | 3m     | DP-5-3000-045-HP |
| 7mm       | 3m     | DP-5-3000-07-HP  |

## 5" Static Line ST52 Pipes with PM Male/Female High-Pressure Ends

- 85BAR working pressure using ASTM1020 carbon steel
- Painted in 2 Pac white colour
- great for running long static lines in tunnels or other enclosed sites
- Custom lengths made to order

| Thickness | Length | PCS Product Code   |
|-----------|--------|--------------------|
| 5mm       | 3m     | DP-5-3000-05-ST-MF |

PCS also has available high-pressure bends with male/female ends to suit static line pipes.  
Refer to page 14.

## CONCRETE DELIVERY PIPE INSPECTIONS, TAGGING AND HYDROSTATIC TESTING SERVICE

### Hose Inspections

We offer a free visual inspection on all concrete delivery pipes at our Campbelltown warehouse that involves:

- Testing the thickness of pipes using our calibrated thickness tester
- Wear and tear damage including the identification of any outer pipe damage that may affect the working pressure of the pipe.
- Corrosive damage to the pipe/fittings.

### Tagging

- PCS works with our biggest clients in implementing a pipe management program using infochip® weldable RFID chips to tag each individual concrete delivery pipe.
- The RFID chips are welded onto the end of the pipe and are readable off any android phone.

# Hydrostatic Testing Service

- PCS has an in house hydrostatic testing service using water with compressed air that can test concrete delivery pipes up to 170BAR.
- Tests are conducted in accordance to Australian Standards
- Each test certificate will link back to the RFID tag on the pipe being tested
- We can test new pipes as well as conduct the required yearly pressure testing on your pipe.
- PCS is happy to arrange pickup and delivery of any pipe that needs to be tested Australia wide using any one of our network of couriers

# Fixed/Static Concrete Pipe Line Accessories

## Floor/Wall Brackets

- Static line concrete pipe brackets
- Base plate size 200mm x 240mm with 22mm holes
- M18 threaded U-Bolt
- Bracket allows for 100mm clearance between ground and the pipe
- 150mm clearance brackets are available with lead-time of 10-12 weeks

### Floor Bracket with Single U-Bolt

Used for static lines being run along the ground

| Pipe I.D | PCS Product Code |
|----------|------------------|
| 4"       | FWB-4            |
| 5"       | FWB-5            |

### Wall Bracket with Double U-Bolt

Used for static lines placed up against a wall

| Pipe I.D | PCS Product Code |
|----------|------------------|
| 4"       | FWB-4-D          |
| 5"       | FWB-5-D          |

# Concrete Remover

## Con-Clean Concrete Remover

- Dry lubricant derived from Molybdenum disulphide allowing for application in high temperatures
- Safely remove concrete/cement from trucks and tools. Apply with broom or spray. Allow up to 20minutes dwell time. Remove concrete with pressure washer
- Safely removes concrete/cement from aluminium windows and glass. E.g. Industrial Clean ups. Will not etch glass, paint or aluminium
- Safely removes efflorescence, lime scale, mineral deposits from ceramic tiles bricks and pavers without attacking the surface.
- Safely removes hard water scale deposits from boilers (calcium) iron, iron oxides (rust), magnesium/manganese salts by chelation (forming water soluble complexes which are easily washed away)
- Hydrochloric acid replacement – No fumes – Far safer – No corrosive 8 – OH&S friendly -100% biodegradable and can be shipped without any hazmat markings.

## Crete Off Ready to Use Concrete Remover

Crete Off Concrete Dissolver works by attacking and dissolving the "glue," or Portland, in concrete. It deconstructs the bond between the Portland and the other ingredients such as sand or gravel. It turns the material into a soft mush which does not require hazardous waste disposal.

- Great replacement product for acid and is not classified as a hazardous material.
- 100% biodegradable and can be shipped without any hazmat markings.

## True Grit Hand Cleaner

Heavy duty hand cleaner for industrial use designed to remove the toughest industrial soils from hands without stripping natural oils from the skin. It contains natural citrus extracts and fine polyethylene beads to remove grease, oil, grime and most paints and inks. For best results do not pre-wet hands and apply a small amount to hands, massage in and then rinse with clean water. Repeat if necessary.

## SuperLube 100™ Concrete Primer

SuperLube 100™ is a state-of-the-art liquid concrete pump primer uniquely formulated to provide the concrete contractor with a cost-effective replacement for premium priced grout, primer slurries or bagged cement primers.

It is environmentally safe and compatible with all concrete materials and contains no bentonite, cementitious materials, soaps or air entraining agents.

### Advantages:

- Liquid mixes into solution much faster than it's inferior powdered counterparts
- No need for expensive ready-mixed priming grout
- Increases ease and range of pump ability
- Decreases wear on equipment
- Easily introduced into pumping equipment
- Decreases horsepower required for pumping
- Reduces friction and line pressure

### Directions:

Shake well before opening.

Using a 20L drum pour ¼ of a bottle of SuperLube 100™ into 5L of water and mix for at least 5 minutes.

Just before you are ready to pump, mix another 15L of water and pour the product directly in the hopper. When the water becomes thick, you may begin priming. It is recommended that testing be done to determine the suitability of SuperLube 100™ to your concrete applications

## Portable Concrete Vibrator Shafts

### PCS Product Code

PV5H-45

The Crommelins take-anywhere 45mm Portable Vibrator that will do several jobs that previously could only be done by larger drive units and shafts. The portability and weight means that this unit is easy to use and saves dragging around heavy Drive Units and Vibrator Shafts. Ideal for footings, stairways and foot paths. Crommelins have also updated the handle and harness and have added a New throttle control on the shaft to fit comfortably in your hand.

### Features

- 45mm Vibrator shaft
- New Throttle control on shaft with soft grip handle for low vibration
- 4 stroke petrol engine means reduced engine emissions and no mixing of fuel is required
- Proportionately balanced design is also lightweight
- 45mm Vibrator shaft
- Anti-roll bar to protect the engine from damage in transit.
- Full length steel reinforcing spiral which provides increased strength to the poker hose
- Resilient Nose model (PV45SRN)
- 3yr Subaru engine warranty
